Litigation, Arbitration and Dispute Resolution

Litigation is a highly specialized area of law. A true litigation lawyer has a keen eye for people's needs and is able to use his/her legal expertise to formulate the best strategy and analyze the pros and cons. In addition, a litigation lawyer also has good communications, writing and speaking skills and is able to effectively grasp the appropriate opportunity and timing and respond on the spot, never missing any chance of winning when fighting for client's rights.

Regardless of the type of legal issues involved, protection must be sought through litigation, arbitration, or other dispute resolution mechanisms when dispute or the need to assert one's rights arises, which is the core of legal practice. In order to protect clients' rights and interests, Chien Yeh attorneys are well-versed in various litigation procedures and techniques. Accordingly, Chien Yeh also established a specialized litigation team to provide high-quality legal services across multiple litigation areas, such as commercial litigation and arbitration related to corporates, insurances, negotiable instruments and securities, as well as civil litigations, arbitration, and compulsory enforcement, consumer disputes, and criminal litigations related to securities exchange, commercial accounting, and taxation. Chien Yeh's philosophy is to resolve disputes in the best interest of our clients. Therefore, when our attorneys undertake a litigation dispute, they will first gain a thorough understanding of the facts, logic, and intent of the client. Next, they will focus on the overall picture and then perfect their plan before proceeding with the litigation, which fully implements the Strategy of Attack of The Art of War by Sunzi: "Thus the highest form of generalship is to balk the enemy's plans; the next best is to prevent the junction of the enemy's forces; the next in order is to attack the enemy's army in the field, and the worst policy of all is to besiege walled cities."

However, if litigation is inevitable, we will communicate effectively through submission of pleadings and court arguments according to the formulated strategy in order to fully speak for our clients, as well as seize any opportunity to resolve the matter properly and quickly to achieve fairness and justice sought by our clients.

公平交易

針對公平交易法之相關事件，鑒於相關行政訴訟之勝率通常難以期待，本所主要著眼於協助客戶進行事前預防（包含公平交易法相關之內部教育訓練、法令遵循流程之建構等），以及早期危機管理（協助客戶處理應對公平交易委員會階段之行政調查，包含聯合行為、轉售價格限制、不實廣告，或其他各種不公平競爭態樣之相關調查等），並可提供靈活的因應對策。

此外，針對跨國併購案件，本所除了協助客戶實際進行申報程序外，亦秉持上述事前預防之觀點，協助客戶確認併購時之市場劃定議題，以及於事前評估是否進行結合申報及相關風險。過去亦曾有協助進行跨國併購之客戶，取得公平會正式通知無需申請結合之實績。

Fair Trade

For matters related to the Fair Trade Act, expectation for the chance of winning related administrative litigation is often low. Thus, our focus is mainly on assisting the clients in preparing for advance prevention (including internal education and training, as well as establishing procedures to ensure compliance with the Fair Trade Act) and early-stage risk management (helping clients respond to administrative investigation of the Fair Trade Commission, such as concerted actions, resale price restrictions, misleading advertisements, or other investigations related to unfair competition). Chien Yeh can provide flexible strategies in response thereto.

Furthermore, in terms of cross-border mergers and acquisitions, Chien Yeh not only assists clients in the actual filing process but also helps clients in confirming the market delineation during the mergers and acquisitions from a prevention viewpoint, as mentioned above. Advance risk assessment related to merger filing will also be conducted accordingly. Chien Yeh has been supporting our clients in cross-border mergers and acquisitions and has helped our clients in obtaining formal notification from the Fair Trade Commission granting that merger control filing is not required.
